

Year 1 Home Learning
Autumn Term 2
Castles and Knights

To do

You should be spending at least 10 minutes 2-3 times every week on practising your maths skills.

Year 1 should be reading at least 4 times a week. An adult will need to record what you have read and add any comments.

Do you know of any castles local to us? Can you write a few sentences about that castle using your sentence prompt card and sound mats.

To choose(these are optional!)
Our topic is Castles and Knights

In Science, we are going to be looking at different materials. Can you draw some objects and write what they are made of in your home?

In PSHE, we are learning about family and friendships. Can you make a family tree of all your family?

Can you write the number sentences for a fact family? There should be 4 different number sentences, with the same 3 numbers!
