

In English we are going to be reading a book about a dragon! I would like you to choose one or more of the writing tasks below:

- Draw and write a description of your own dragon.
- Write a short story that has a dragon as a character
- If you had a dragon as a pet, how would you take care of it? Write instructions to tell someone else what they would need to do!

In maths we are going to be learning to tell the time to half past, quarter past, O'clock and quarter to. I would like you to practise at home by:

- Looking closely at the clocks you have at home and tell others the time.
- Playing games about time – [topmarks.co.uk](http://topmarks.co.uk) have some good games to help you.
- Or by thinking up your own games to help you learn to tell the time 😊

Write about how you have practised in your home learning book.

In science we are going to be finding out about lifecycles. Play some of the games at the link below and then draw 1 or 2 of the lifecycles in your home learning book.

<https://stormedapps.co.uk/lifestages/lifestages.html>

**In R.E we are learning about sacred books.**

**I would like you to pick a book or books that are special to you. Explain why they are special and write a review to encourage others to read it.**

Remember to record all of your home learning in your book  
and return at least 4 pieces across the term 😊

Remember to use  to learn your times tables

to practice your spellings and **NET** every day

In geography we are going to be using maps and learning about our local area. I would like you to draw a map of your journey to school. Label the places and features on the map

In art we are going to be creating art using natural objects such as petals, sticks and leaves.

I would like you to create your own nature art at home. You could use items you find outside, pictures of natural objects or you could just draw/ paint / make art with nature as the theme.
