

# Year 5 Home Learning Menu Term 2

Please complete 5 tasks this term.

Visit the website below to play a game where you need to sort multiples: <a href="https://www.topmarks.co.uk/carroll-diagrams/multiples">https://www.topmarks.co.uk/carroll-diagrams/multiples</a>		Imagine you have discovered a new planet. Write a description or create a fact file about it.		<div><div><div>YourCHOICE</div><div>YOU DECIDE! Wow me by researching /presenting / drawing / painting / making.... Anything you like on our themes of Space or Victorians or something completely different!</div></div><div><div>POSTER COMPETITION - BE SAFE and BE KIND to SWANLEY</div><div>- too many dog owners let their dogs mess on streets, driveways and gardens and don't clear up the mess. - too many dog owners leave poo bags on ground instead of using bins provided. Design a poster to encourage/persuade dog owners to fix both of these problems. Use big, bold writing. Draw large, clear pictures. Winning entries will be displayed across Swanley to remind dog owners of the right thing to do.</div></div><div><div>Please make sure entries are labelled with name and class. At the end of Term 2, please can you bring any completed entries to the school office.</div></div></div>
Remembering what we learnt about forces last term, can you design or make a model rocket that would be able to go to space and safely return to Earth.	Ask an adult or friend to write a number down. You have one minute to tell the person as many facts about that number as possible. It could be: sums that total this number; whether the number is odd or even; how many digits it has; place value; if it has any factors; what its multiples are; where this number is seen in real life, etc.			- too many dog owners let their dogs mess on streets, driveways and gardens and don't clear up the mess. - too many dog owners leave poo bags on ground instead of using bins provided. Design a poster to encourage/persuade dog owners to fix both of these problems. Use big, bold writing. Draw large, clear pictures. Winning entries will be displayed across Swanley to remind dog owners of the right thing to do.
	Then write down a new number and create number facts for the new number. Can you draw fraction bars to represent different sets of equivalent fractions? Examples: <div><div><div><div><math>\frac{2}{3}</math></div><div></div></div><div><div><math>\frac{8}{12}</math></div><div></div></div></div><div><div><div><math>\frac{1}{4}</math></div><div></div></div><div><div><math>\frac{2}{8}</math></div><div></div></div></div></div>			
Make up a Victorian quiz to test your friends or family.			What ten things would you take with you on a trip to outer space? Write a list and give a reason for each object.	
 Don't forget to practice your times tables regularly.		 You should be reading at home for 30 minutes 4 times a week. Make sure you record what you are reading and complete the quiz when you are finished.		 You can practise your weekly and key word spellings online.
